

0:0:0.0 --> 0:0:0.430

INTERVIEWER - MW

Right.

0:0:2.350 --> 0:0:8.960

INTERVIEWER - MW

Okay, ready to rock? So, the first question coming out of the gates is what does occupational stress mean to you?

0:0:11.280 --> 0:0:14.470

FR11

Occupational stress to me means

0:0:15.630 --> 0:0:21.560

FR11

the factors that come along with the nature of your job

0:0:22.660 --> 0:0:23.100

FR11

that

0:0:24.10 --> 0:0:28.290

FR11

adds to the stressors that everyday life would

0:0:29.370 --> 0:0:59.730

FR11

typically present, you know, like life's going to have the stress, as with health, money, family, marriage, all that. I think with occupational now you're looking at more of the stress related to administration, the just personnel issues like for us being in the fire service it's dealing with people typically when it's there you know kind of their worst day and a lot of times happened to be the bearer of bad news

0:1:0.260 --> 0:1:6.110

FR11

to them, whether it's a loved one that has been sick, so just the stressors that come with that.

0:1:7.160 --> 0:1:7.770

INTERVIEWER - MW

That's good.

0:1:8.790 --> 0:1:11.940

INTERVIEWER - MW

What would be helpful to you for stress reduction while on the job?

0:1:14.170 --> 0:1:30.50

FR11

Uh well for me, one thing I've always thought, is just having someone to talk to with it. That's a that's a big one, throughout my career. My faith has been, you know, the catalyst with all of it because instead of trying to internalize things and, you know, think that

0:1:31.230 --> 0:1:58.260

FR11

like everything that goes good or bad is something I had direct control over. You know, to me is my faith that it shows that you know what if they die? Really. It was kind of their time. If they

live over their time and and we've had calls that we did everything perfect and someone still died and we had other ones where things did not go well and people survived. So yeah, just the the faith is a really big one and I said this as well you know just for me having a really big thing

0:1:58.690 --> 0:1:59.30

FR11

yeah

0:2:0.590 --> 0:2:2.320

FR11

It's been been good to have that

0:2:3.40 --> 0:2:4.730

FR11

stress release through fitness.

0:2:6.750 --> 0:2:13.580

INTERVIEWER - MW

Good can kind of thinking back over your career, could you describe a scenario where you felt overwhelmed during your job?

0:2:15.140 --> 0:2:18.570

FR11

Uh, probably the most overwhelmed

0:2:19.810 --> 0:2:51.140

FR11

um I was actually talking to my wife about taking a trying to take a voluntary demotion with all of it was when we were facing a lot of personnel moves and I was in in charge of a lot of really strong willed people that while you know, and you know, in my mind everything had been going well. The Chiefs above me had other department goals and they were pretty much forcing the moves to be made.

0:2:51.260 --> 0:2:56.430

FR11

But it was up to me to do it and that is was that graded

0:2:57.110 --> 0:3:7.860

FR11

that time where I couldn't even sleep at night, you know, just, you know, really almost nauseous. Just so much of the stress build up and I'd driven to one of the stations and talked to them

0:3:8.900 --> 0:3:12.100

FR11

one of my one of my buddies and it just kind of had a chance to

0:3:12.810 --> 0:3:24.160

FR11

run through things with him, and he's been I've been in that same role for him before, so I haven't a chance for him to kind of in a way, you pay that back, was helpful to have someone I know I could confide in because we have that shared trust.

0:3:26.770 --> 0:3:27.140

INTERVIEWER - MW

Uhuh.

0:3:28.10 --> 0:3:28.920

INTERVIEWER - MW

Yeah, talk us through that.

0:3:29.920 --> 0:3:33.750

INTERVIEWER - MW

What was going through your head? What are the things you were wrestling with?

0:3:34.660 --> 0:3:39.820

FR11

Oh the wrestling was just knowing that, you know, was trying to do what is

0:3:41.840 --> 0:3:43.190

FR11

right for the position

0:3:44.900 --> 0:4:13.490

FR11

and knowing that the chief and the assistant chief, we just see a lot of things different, and you know, I'm still trying to find ways to be effective within my career and my position. But knowing that I was caught in between two really strong opposing wills and opposing forces and just knowing not just the difficult conversations with the firefighters that were getting moved, but also the blowback because of it

0:4:14.240 --> 0:4:24.570

FR11

and knowing they're just going to make her a really pretty miserable work environment around the station and knowing that even by going through a part of it that it still wasn't going to change

0:4:25.730 --> 0:4:40.440

FR11

kind of how I see the chief and assistant chief. I still perceive me as a leader and just my willingness to stand up and make difficult calls. So just with all that.

0:4:42.460 --> 0:4:43.150

INTERVIEWER - MW

How?

0:4:44.310 --> 0:4:47.120

INTERVIEWER - MW

How did it go? How is it going, just curious?

0:4:47.740 --> 0:4:51.910

FR11

That was a few years ago. There was a the fallout that I anticipated

0:4:52.610 --> 0:5:13.0

FR11

within the the firefighters one of them I'm, you know, I was built a lot of trust before and though he wasn't happy, it was something where he understood that there was a lot more

behind it and so that wasn't held as a personal thing. The other one that was just never it wasn't a great relationship to begin with, but it was never the same afterwards and

0:5:14.400 --> 0:5:19.710

FR11

even even after the fact, I don't think it really changed

0:5:20.480 --> 0:5:23.570

FR11

the chief and the assistant chief, any of their opinion

0:5:24.330 --> 0:5:30.340

FR11

of you know, kind of like my ability to make the decision that they think was the right one. I think that they still

0:5:30.990 --> 0:5:38.940

FR11

felt like there was just a big gap in what they see as what their expectations are and what mine are.

0:5:41.210 --> 0:5:41.700

INTERVIEWER - MW

Good.

0:5:42.560 --> 0:5:44.340

INTERVIEWER - MW

You mentioned fitness being a big

0:5:45.160 --> 0:5:47.610

INTERVIEWER - MW

player in stress reduction what

0:5:47.690 --> 0:5:52.880

INTERVIEWER - MW

if any types of chronic work related pain, do you have? Is that a thing for you?

0:5:54.630 --> 0:6:1.510

FR11

I do not have chronic work related pain. I've been pretty blessed at this point that at [IN MY FIFTIES].

0:6:2.850 --> 0:6:3.800

FR11

um other than one

0:6:4.490 --> 0:6:16.140

FR11

work injury to have me off work for [A FEW] months, everything else has been like a I still can do the activities that I wanna do and I don't have any limitations with it.

0:6:18.560 --> 0:6:23.700

INTERVIEWER - MW

That's great. What's been your regimen? Kind of what do you attribute to that?

0:6:24.290 --> 0:6:38.600

FR11

A lot of it, I think being a really, really like a late bloomer and being a really sucky athlete, going through high school, kept me from getting beat up when I was younger and my body finally matured to the point where it was able to handle the rigors of the fire service.

0:6:40.80 --> 0:7:8.510

FR11

It was just kind of the right, right place at the right time where you know the body was still at a mature age where I was able to handle the strength training and the cardio training with it and I think that it just kind of helped me with the developed kind of a strong mindset to keep pushing for a different goal like something else and you know so everything, a lot of my interest right now is there's a lot of endurance events and it all started with doing 5k's

0:7:8.700 --> 0:7:30.220

FR11

because I was getting in shape for fire school and then it progressed, you know, 5K, 10K, half marathon, marathon and then to the ultras into there and then mixing in things like triathlons or the like, the tough mudders, you know, just other ways to really try and challenge not just mentally, but physically as well.

0:7:33.40 --> 0:7:33.750

INTERVIEWER - MW

Yeah, those are

0:7:34.620 --> 0:7:37.820

INTERVIEWER - MW

those are intense. So you did, how many ultras have you did?

0:7:38.910 --> 0:7:43.850

FR11

Ohh, I think a probably at close to 10 now.

0:7:44.370 --> 0:7:47.320

INTERVIEWER - MW

Ohh boy. You're wow. Wow, that's crazy.

0:7:48.100 --> 0:7:48.910

INTERVIEWER - MW

That's awesome.

0:7:52.520 --> 0:7:53.120

FR11

Yeah.

0:7:50.650 --> 0:7:54.380

INTERVIEWER - MW

OK, So what opportunities do you see? Go ahead, go ahead.

0:7:54.580 --> 0:8:25.550

FR11

That would have never. Yeah, when I was growing up, I would never expected that. That's kind of where I would have ended up just cause that was not I wasn't a runner through school. I was that, you know, a lot of that like the big we didn't do a lot of outdoor stuff like camping and how you and all that, that was all kind of later on that I found the passion for it and they just found ways to keep using that as my motivation to stay in shape and for me it is that the that's

the biggest benefit that is just such a great stress relief. Anything that might have been going on over the last couple of days

0:8:25.930 --> 0:8:33.560

FR11

when you get out there and you hit a certain point in the mileage or you know, like hours is you're not even thinking about any of it. It's just helps clear the mind.

0:8:34.520 --> 0:8:38.290

INTERVIEWER - MW

Yeah, man, I could imagine. Did a marathon before and that was

0:8:43.40 --> 0:8:43.380

FR11

Yeah.

0:8:39.10 --> 0:8:43.600

INTERVIEWER - MW

it was enough for me, but it's just like, because you and your thoughts, you know the only I mean

0:8:44.330 --> 0:8:48.960

INTERVIEWER - MW

then you get out there and you know no escaping it can't run from it literally just there.

0:8:47.850 --> 0:8:49.910

FR11

Alright, yeah. Which Marathon did you do?

0:8:50.650 --> 0:8:52.360

INTERVIEWER - MW

the Columbus did it.

[MENTIONS DETAILS ABOUT TRAINING FOR AND PARTICIPATING IN HALF- AND FULL MARATHONS].

0:9:27.780 --> 0:9:32.810

FR11

It is. It's so tempting to make that turn finish at the 1/2 instead of going right by all of them.

0:9:34.90 --> 0:9:35.10

INTERVIEWER - MW

Really is.

0:9:36.850 --> 0:9:43.60

INTERVIEWER - MW

So. So what opportunities do you see for incorporating well-being resources into your daily workflow?

0:9:45.700 --> 0:9:48.440

FR11

Right now I'm I'm fortunate that at the department I'm at there

0:9:50.70 --> 0:9:52.70

FR11

taking we we have the chief his

0:9:52.860 --> 0:10:13.540

FR11

focus since he came in [NEARLY AROUND A DECADE AGO] has been to try and do things to help improve the benefits of our department for Mental Health and Wellness and kind of, you know, talked with them through some of the process and just I know some of the struggles he's had on trying to not just find the right

0:10:14.860 --> 0:10:17.950

FR11

company or business to pair with, but also

0:10:18.640 --> 0:10:34.310

FR11

um trying to find the where you can actually get past the conversation stage and so I know that this year he finally was able to work to get a contract in place. I forget the name of the company at the time, but

0:10:35.730 --> 0:10:49.870

FR11

um starting next year, we're gonna be doing the mandatory annual meeting where everyone will sit with as one of the counselors, just the kind of do a Wellness check and then if you need to follow up further, you can. But

0:10:51.620 --> 0:10:54.370

FR11

they also we've partnered with

0:10:55.230 --> 0:11:5.580

FR11

a group that does yoga, so we have a strength trainer that comes in on Thursdays and this just starting two months ago, we partnered with there's a lady that runs her own

0:11:7.40 --> 0:11:10.380

FR11

a studio and she has her and three of her

0:11:11.210 --> 0:11:22.970

FR11

other, like fellow teachers, will come in once a week to the department and then are just teaching some of the basic and some of the stretches and everything. But you really kind of working on the mindfulness

0:11:23.910 --> 0:11:27.280

FR11

part of just the the routine as well.

0:11:30.460 --> 0:11:35.110

INTERVIEWER - MW

What have been some of the barriers playing a role in bringing well-being resources into the workplace?

0:11:36.110 --> 0:11:43.650

FR11

A lot of it was being uh an organization that has over 120 employees.

0:11:44.260 --> 0:11:54.730

FR11

Um first off, trying to find someone that has the experience to do the the job that understands what the stresses are with fire and EMS

0:11:55.550 --> 0:12:26.290

FR11

and then second is trying to find someone that would be available often enough or group that would be available often enough for when we need, because a lot of those it could. You never know when you're gonna have, you know, a scene or a run that impacts a greater number of people where it might not be a one-on-one. You may be having 10 to 20 people that will need to be addressed. Just really trying to get get people past the concept stage actually putting a plan in place on how to do this and then following through with it.

0:12:27.60 --> 0:12:28.820

FR11

Uh, finances are one too, because

0:12:29.690 --> 0:12:53.320

FR11

a lot of the counselor that we talked to they don't accept the insurance that we're on most of us and out of pocket, so trying to get people where you're trying to find the benefit, but also the the financial barrier could be there. So and the one thing the chief was working through is trying to find if there's a way that the township can help offset the the cost for office visits. Last thing with us would be just

0:12:53.980 --> 0:13:14.580

FR11

the because we're very unpredictable schedule and we may have an hour schedule to each station where we have the instructors coming around and during that time you may have nobody in the station because we're all taking calls. So you've contracted, they still get paid, but nobody had the benefit from it. So there's just some of them, some of the barriers.

0:13:15.340 --> 0:13:16.820

INTERVIEWER - MW

Yeah, it's interesting.

0:13:18.50 --> 0:13:19.260

INTERVIEWER - MW

So along those lines.

0:13:18.450 --> 0:13:31.370

FR11

I think overall the concept of it has been received better than anticipated because when you think if you're taking a bunch of type A firefighters and thinking, you know, bringing yoga in when they're used to strength training and you know that approach

0:13:32.490 --> 0:13:39.940

FR11

I think that you know you you never know how it's gonna be received. But overall from the department, I think it's been received very well.

0:13:41.250 --> 0:13:44.720

INTERVIEWER - MW

Awesome. So, guys, are they're they're dabbling they're curious at least?

0:13:45.160 --> 0:13:46.290

FR11

Yes, definitely.

0:13:47.890 --> 0:13:48.160

INTERVIEWER - MW

Yeah.

0:13:49.90 --> 0:13:54.250

INTERVIEWER - MW

So then what are your thoughts regarding incorporation of mindfulness practice into your daily work life?

0:13:55.600 --> 0:13:58.460

FR11

I think it's kind of the same thing where there's gonna be

0:13:59.850 --> 0:14:5.170

FR11

uh if you're not intentional about it, it's not gonna make a difference. I think you have to find a way to be intentional about it.

0:14:5.830 --> 0:14:11.770

FR11

And you know, again for us that might be, you know, having to take the time as it presents itself

0:14:12.740 --> 0:14:15.600

FR11

and not necessarily think it's gonna be a scheduled time.

0:14:20.10 --> 0:14:32.120

INTERVIEWER - MW

To tell me a little bit more when you say intentional, you talking about you as the person or you as the person and the whatever you're partnering with or the meeting from the department level?

0:14:33.710 --> 0:15:2.700

FR11

As a person, because I think that from the whoever's teaching it can give you a basic skill set and teach you a little bit of, you know, the the process behind it. But again, just with the randomness of our schedule, you know, not not everyone is busy at the same time, you know, we may, I may be in a a meeting because as a Battalion Chief, I have different responsibilities than the EMS personnel that might be responding to a medical and then you have like the ladder company

0:15:3.360 --> 0:15:9.440

FR11

stiving for that day? Maybe at the station because they're not on something, you know? So I think that you have to be intentional about

0:15:10.270 --> 0:15:12.730

FR11

recognizing the the down time that you have

0:15:13.810 --> 0:15:26.530

FR11

and then you know, putting that, you know, understanding the benefit, seeing it, recognizing the downtime and then putting that into practice when you can and maybe something where you just wait until like in the morning, right, as you go off duty.

0:15:27.530 --> 0:15:35.760

FR11

or maybe come in early to kind of get your mindset beforehand. So I think you have to be intentional about when you're going to try and plan it, because the day is unpredictable.

0:15:37.530 --> 0:15:38.640

INTERVIEWER - MW

Yeah, that's a great thought.

0:15:39.690 --> 0:15:48.280

INTERVIEWER - MW

What about? So we're looking at doing like a app based program and what are your thoughts along those lines? Is that something that you feel like would

0:15:49.130 --> 0:15:51.840

INTERVIEWER - MW

could work? Would work? What would we need to be considering.

0:15:52.670 --> 0:15:59.400

FR11

Yeah, I think that I think that the app based probably would have a pretty good foothold. And I only say that because the

0:16:0.770 --> 0:16:4.620

FR11

the person we use for our strength training over the last year

0:16:5.390 --> 0:16:10.980

FR11

came out with an app that would you know, they they would roll out the different workouts throughout the week

0:16:11.770 --> 0:16:31.950

FR11

and then they send it to the fire departments that are contracting with them. So even when they're not there in person, what they would do is they would send here's the workout of the day. You can track it all on there. So they, so it measures all of it and you can see the input from the coach that's on there, but they also would have

0:16:32.690 --> 0:16:55.360

FR11

a training video, so if you if they're telling you an exercise and you're not really sure what it is,

you can link and have a video attached to it to show you exactly what they mean. So I think that there's already been an introduction of an app based model, then it would be easy for people to switch over to and especially if you're trying to move towards this being a long term thing, you know the

0:16:56.100 --> 0:16:56.690

FR11

The.

0:16:57.500 --> 0:17:16.370

FR11

You know my generation and the ones probably the about, you know, the early 40s are probably not quite as tech savvy as the group was going to be taken over. And I think that there's there's a lot more familiarity and comfort with using an app based program for a lot of our 10 to 15 year

0:17:17.320 --> 0:17:22.310

FR11

veterans right now than there would be between our 25 and 35 year veterans.

0:17:23.380 --> 0:17:25.400

FR11

So I think it so I think that would be effective.

0:17:40.820 --> 0:17:41.130

FR11

Right.

0:17:27.220 --> 0:17:41.670

INTERVIEWER - MW

That's a great point, and now it's the fact that you guys are already dabbling in. It sounds like, I mean, it's essentially hybrid, you know, you got there one day in person and in between you have your app and can do it at your own leisure. That's good. That's interesting.

0:17:43.790 --> 0:17:52.360

INTERVIEWER - MW

Scenic barriers with that approach. Have you guys ran into any barriers within on the fitness side that we may want to consider on the mindfulness side?

0:17:51.670 --> 0:18:5.60

FR11

I I think just a lot of it too just comes down to where when it's new, it's the shiny object and everyone kind of messing with it and seeing how it works. But I think with anything, there's always a tendency that there's something else that gets moved on to so.

0:18:6.660 --> 0:18:17.690

FR11

Um you know, even though the contents the same, the quality still there. Yeah, the people may not. You may see a lot more use up front than you would, you know, six months down the road. So I think it says trying to find ways to

0:18:18.480 --> 0:18:30.10

FR11

um to keep find a ways to to keep people engaged with it and to keep them coming back to, you know, kind of stay stay up with the with the program and maintain the benefits.

0:18:33.190 --> 0:18:36.680

INTERVIEWER - MW

What type of information do you think would be important to include in the app?

0:18:38.810 --> 0:18:51.720

FR11

I think with a lot of people just initially, it's getting past the, you know, right now that seems like the trendy word is mindfulness. But then what's that really mean and what does that?

What does it practically look like? You know, how do you do it? How do you?

0:18:52.580 --> 0:19:0.400

FR11

You know, just take time to either settle your mind or clear your mind and you know just I think just tips or

0:19:1.360 --> 0:19:4.920

FR11

yeah, a little bit of coaching through that would be pretty important.

0:19:7.920 --> 0:19:9.30

INTERVIEWER - MW

What um how

0:19:10.50 --> 0:19:16.220

INTERVIEWER - MW

how's engagement been with the fitness side of thing and the app, has that been pretty good or do you guys talk about that much?

0:19:16.950 --> 0:19:27.140

FR11

Oh the main thing is when the trainer comes in, when they first got it, he was saying that there was. He was saying that it was almost like a 70% involvement which

0:19:27.880 --> 0:19:29.930

FR11

was really good, that's people that are actively.

0:19:30.730 --> 0:19:31.160

INTERVIEWER - MW

Umm.

0:19:30.650 --> 0:19:56.110

FR11

Interacting with the program that are tracking their workout for that day, they're putting in what weights they were doing, how many reps you know they're going through, you know, raising the quality and the energy level of the workout. They're doing all this stuff with it. Then initially, he said, I was like around 70. I would have to think it's tailed off since then just because even with the company that I'm working with, I don't see it as much. But I know people are still using it. I know it's still there.

0:19:57.720 --> 0:20:1.460

INTERVIEWER - MW

Yeah. Well, that's that's good to know because that sounds like there's a lot of, there's a lot of activity involved in being that engaged, so folks are still going to that extent. That's a good sign.

0:20:11.490 --> 0:20:18.290

INTERVIEWER - MW

One question we've had, I'm curious to see your thoughts is like who should be present in the videos that you be able to watch through the app?

0:20:22.530 --> 0:20:25.530

FR11

Who should be present in what? Just to talk about mindfulness?

0:20:26.460 --> 0:20:31.520

INTERVIEWER - MW

Umm any any type of instructional video or experiential video?

0:20:38.660 --> 0:20:40.190

FR11

Umm, that's a good question.

0:20:41.630 --> 0:20:55.300

FR11

I guess whenever it just for my own, my own thought is when I think of mindfulness, and I think of yoga on there, I think of the kind of the stereotypical female instructor

0:20:57.450 --> 0:21:7.260

FR11

that you know, just like like, runs her own studio. Basically, you know, in my in my picture there's kind of a like a stereotype with that.

0:21:8.0 --> 0:21:9.580

FR11

That I think that there be,

0:21:10.540 --> 0:21:13.0

FR11

It'd be easier for someone to connect with.

0:21:14.210 --> 0:21:17.320

FR11

In my mind, I'd be here for someone to connect with that image and that

0:21:18.200 --> 0:21:19.890

FR11

perspective in there,

0:21:20.680 --> 0:21:22.600

FR11

than if you see like some

0:21:23.720 --> 0:21:29.530

FR11

big, Brawny NFL player talking about mindfulness. Yeah, I think that maybe if you're

0:21:30.210 --> 0:21:32.590

FR11

someone at first trying to teach and coach.

0:21:33.250 --> 0:21:47.250

FR11

That would be, you know, I think you know, going for someone to kind of looks that that role. But you know, because of the the target audience of the fire service, it could be where you find a way to morph into someone that looks more like

0:21:48.170 --> 0:21:57.840

FR11

the image of the firefighter as well, you know, maybe it's someone had a military background, maybe someone that has the fire background, maybe they've been through the

0:21:59.170 --> 0:21:59.550

FR11

the

0:22:0.320 --> 0:22:2.20

FR11

trauma and dealt with some of the

0:22:3.70 --> 0:22:19.280

FR11

mental stresses and have used this as a way to get through. So I think you know, there's no, there's no way people like to connect with people the the look like them and understanding the background. So I think that there's there's a way to mix all that in. But I think that it it doesn't have to be just one

0:22:20.130 --> 0:22:23.250

FR11

type of person, but I think that you know initially.

0:22:23.980 --> 0:22:32.980

FR11

I think it would be, you know, kind of like we have, you know, we have the the lady from the yoga studio come in and talking about it. But I think that there has to be a way to connect it over to

0:22:33.360 --> 0:22:34.470

FR11

uh, the

0:22:35.640 --> 0:22:36.590

FR11

type A

0:22:37.400 --> 0:22:40.780

FR11

brawn, you know, physical job type blue collar

0:22:41.480 --> 0:22:42.350

FR11

worker as well.

0:22:49.50 --> 0:22:49.750

FR11

Because the.

0:22:44.290 --> 0:22:50.200

INTERVIEWER - MW

Do you feel like the the yoga instructors I've been doing a pretty good job at doing that, connecting the dots?

0:22:50.900 --> 0:23:20.930

FR11

Yeah, they have only been there for three weeks, but the what helps was the the lady when she first came in to kind of present the the the workout routine and kind of the what they were trying to accomplish. Her background is she was like a she's a retired marine and she was a paramedic and she was a firefighter. So, you know, she has the background that connects her to say, look, I've I've done your job. So I know.

0:23:21.490 --> 0:23:36.420

FR11

I'm not coming from a place of fear. I'm coming from a place where I know what it's like. You know, I've actually walked in your shoes and I know how this and told me. I know, you know, during the bad days what it's like. I know getting no sleep what it's like. So having someone that that can actually understand it

0:23:38.110 --> 0:23:41.290

FR11

and you know, just you know what the job is about. It was very helpful.

0:23:47.320 --> 0:23:48.320

FR11

Yeah, exactly.

0:23:43.0 --> 0:23:49.870

INTERVIEWER - MW

Yeah. Yeah, that's huge, man. It's like a Unicorn, though. There's a lot of those out there just rolling around.

0:23:49.460 --> 0:23:50.330

FR11

Exactly.

0:23:51.690 --> 0:23:52.70

INTERVIEWER - MW

Also.

0:23:51.320 --> 0:23:53.890

FR11

But he gave her, but he gave her credibility, walking in the door.

0:23:54.470 --> 0:23:55.780

INTERVIEWER - MW

Mhm

0:23:54.970 --> 0:24:20.400

FR11

You know, it's not not saying, you know, that's great, but you 110lbs and you know you can bend over and touch your toes and we can't even flex that well. You know one of those, but it's someone that understands the benefits of how how that carries over and they could relate to

someone that's been in the job you connected to people that we work with currently say OK, Now I can see how the where the benefits are for this long term. I think there is a lot more focus on

0:24:21.0 --> 0:24:29.640

FR11

uh on a lot of the people again in my in my group, you look at the people from the, you know, 20 years on range of

0:24:30.590 --> 0:24:36.330

FR11

you know, we're not flexible like when we started and there is a lot of that when you're start thinking, OK, what's my

0:24:37.160 --> 0:24:48.20

FR11

life after the fire service going to look like and nobody wants to be all stoved up and sitting on a couch and can't move, you know, we see the guys that are hobbled, nobody wants to. Nobody wants to go that route. So I think that

0:24:48.750 --> 0:24:49.560

FR11

that's where

0:24:50.340 --> 0:24:55.400

FR11

uh, that's where you can find inroads to the older group.

0:24:56.280 --> 0:25:4.370

FR11

You know, the more veteran people with things because, you know, start really targeting this is how this what's going to help you after the fire services is over.

0:25:6.410 --> 0:25:6.750

INTERVIEWER - MW

Yeah.

0:25:8.650 --> 0:25:17.190

INTERVIEWER - MW

That was great. That was all the formal questions we had. Is there anything else you want us to know that we should be thinking about to be helpful in designing?

0:25:18.840 --> 0:25:19.350

FR11

Ohh.

0:25:18.390 --> 0:25:20.110

INTERVIEWER - MW

This work based stress reduction program.

0:25:20.890 --> 0:25:32.360

FR11

And actually I think that the they're just talking through. There's there's things that came out through the conversation that I wasn't even thinking as I was kind of preparing for this call. So.

0:25:33.170 --> 0:25:38.390

FR11

yeah, there was. And I think that I end up covering everything that I had intended and even more.

0:25:40.230 --> 0:26:4.420

INTERVIEWER - MW

Awesome man. Yeah. This was great. It felt like just every time we have this conversation, we learned so much. Kind of get a behind the scenes of what's going on. Certainly feel like there's lots of opportunities. But like you said, this is, this is a unique crew. It needs to be intentional. It needs to be specific. It can't just be, you know, some stock thing. Here you go. So this is gonna be a fun project for us, and we're really thankful for you guys taking the time just to chat with us and share your insights.

0:26:5.270 --> 0:26:6.170

FR11

Yeah. Glad to help.
